

## Geolocalisation for web hostings

OVH proposes to its customers, who already have a "PLAN" web hosting, to choose the geolocalization of their main domain, as well as multi-domains related to it via Manager.

- **1.** Log into your manager
  
- **2.** Click on your domain in the left menu
- **3.** Click on "**hosting**"
- **4.** Click on "**Geolocalisation**"
  
- **5.** Select a country of your choice in the unrolling list.

and here you can choose between this Ips:

**French Ip**  
**Spanish Ip**  
**German Ip**  
**Polish Ip**  
**English Ip**
